

Bathylaimus Cobb 1894

Type species Bathylaimus australis Cobb 1894: p 409; syn Cothonolaimus Ditlevsen 1919 p 299 pro Macrolaimus Ditlevsen 1918 p 188-189 (homonym to Macrolaimus Maupas 1900, Nematoda); type species Cothonolaimus inermis (Ditlevsen 1918), subsequent designation by Baylis and Daubney 1926 p 124, op De Man 1922 p 119; syn Parabathylaimus De Coninck and Stekhoven 1933 p 120 (type species Bathylaimus ponticus Filipjev 1922, designated by De Coninck and Stekhoven 1933 p 25) op Gerlach 1951 p 206. Syn Bathylaimoides Allgen 1947c p 22 (type species Cothonolaimus filicaudatus Stekhoven and Adam 1931) op Wieser 1956 p 30. If one wants a subdivision of the genus Bathylaimus (see Luc and De Coninck 1959 p 157), Cothonolaimus should be reestablished as subgenus. Revision Wieser 1956 p 31-32
