

~~Enterocolidae - Notodelphyida.~~

Ichnograde

Hesse, 1864.

cyclopoida

I. ruber ^(M)

Syn. Ichnograde Hesse, 1864, p. 349.

Plantipode Hesse, 1864, p. 358; also used on pl. 12. Hesse evidently had 2 names and forgot to change one -

✓ Ixros = sole of the foot.

A doubtful synonym of Enteropsis
Chatton & Brément, 1909, a, p. 197.

This cannot be a synonym of *Euteropsis*, for if the two are identical then Hesse's name takes precedence - But they seem distinct genera, and so Ichnogradus has been put in the *Notodelphy* oida as a separate genus.

Ichnograde ruber Hesse, ♂.♀. ^{Notodelphyoidea.}

— — Hesse, 1864, p. 349: pl. 12. f. 13-23.
Plantipode — Hesse, 1864, p. 358: pl. 12.

Hesse had 2 names for his new genus and forgot to harmonize them —

Habitat. Ascidia microcosmus.

French Coast.
