

in) Caligoida — Nicholesthiidae

Sagum, valid

Wilson, 1913 —

S. flagellatum ①

Syn. Sagum, Wilson, 1913, p. 234

Sagum, Wilson, 1922, p. 28.

Sagum, a military cloak, alluding to
the shape of the fused dorsal plate
covering the thorax.

Gen. body form similar to Ternanthropus.
Cephalothorax irregular in outline: antennal
area separated from head by marginal sinuses.
Posterior body covered with a single dorsal
plate, prolonged at post. corners into large
lobes. Antennae + mouth-parts similar to those
in Ternanthropus - 1^o and 2^o legs reduced
to 1-jointed processes, bipartite at tip: 3^o
leg with broad + laminate endopod: ramus of 4^o
legs laminate at base, flagellate at tip
5^o + gen. seg 15, and abdomen reduced and
concealed: anal laminae short.
