

Crustacea.

Q9
Aetidius Brady, Rep. Voy. Challenger 8¹ (nr. 23) p. 75 (1883) is the original and accordingly correct spelling of this name, the form *Aetideus*, which Giesbrecht in: Tierreich, 6. Lieferung p. 31 (1898) introduced, should not be used. (Copepoda)

"Anaplosoma" G. O. Sars in Pesta's paper on Copepoda non parasitica in: Grimpe & Wagler, Die Tierwelt der Nord- und Ostsee X^c p. 41 (1927) is a lapsus calami pro *Anoplosoma* G. O. Sars, An Account of the Crustacea of Norway, 5. p. 421—449 (1911); in the Nomenclator animal. this original citation is missing. But the name of Sars cannot stand, being preoccupied by *Anoplosoma* L. Agassiz, Nomencl. zool. Index p. 25 (1846); I accordingly propose a new name: *Anoplosomella* Strand n. n. (Copepoda)

Q9!0

Aspidiscus Norman, Rep. Brit. Assoc. 38. p. 298 (1868), still in use, e. g. in: Grimpe & Wagler, Die Tierwelt der Ost- und Nordsee X^c p. 41 (1927), being preoccupied by † *Aspidiscus* Koenig, Icones Fossilium sectiles p. 1 (1825), I rename *Aspidiscifera* Strand n. n. (Copepoda)

Bryaxis G. O. Sars, Crust. Norway 4. p. 35 (1903), still in use e. g. in: Grimpe & Wagler, Die Tierwelt der Nord- und Ostsee X. c. (Copepoda non parasita p. 34 (1927)) [nec *Bryaxis* Kugelann, N. Mag. Liebh. Ent. 1. p. 580 (1794)] I rename *Bryaxona* Strand n. n. (Copepoda)

Cyclopina Claus, Würzburger naturwiss. Zeitschr. 3. p. 85 (1862), still in use, e. g. in: Grimpe & Wagler, Die Tierwelt der Nord- und Ostsee X^c p. 38 (1927) [nec *Cyclopina* Agassiz, Nomencl. zool., Index p. 110 (1846)] I rename *Cyclopinula* Strand n. n. (Copepoda)

Dactylopus Claus has been renamed *Dactylopusia* Norman, accordingly it is an error, when Pesta in: Grimpe & Wagler, Die Tierwelt der Nord- und Ostsee X^c p. 42, speaks of two valid and coordinate genera *Dactylopus* and *Dactylopusia*; his two species of *Dactylopus* are then of course *Dactylopusia* (cfr. his footnote, l. c.) (Copepoda)

Strand,
1929
