Caligoida

Caligidae.

Chlamys = synonym -

van Beneden, 1892, C. incisus.

Evidently the same as Peris-
sopus, and so becomes a synonym.

Besides the name was preoccupied
3 times before Beneden proposed it.

χλαμύς = short cloak of the Greeks.

(over)

Chlamys - Knoch - Coleoptera - 1825

chlamys - Bolt - Mollusks - 1798

@hlamys - Meg - Mollusks - 1830

Chlamys van Beneden - 1892, p. 227.

Lernaeopodidae - Lernaeopodoida

Chlamys incisus van Beneden, ♀.

—— Beneden, 1892, p. 227: pl. 2. figs. 1–10.
Perissopus — Bassett-Smith, 1899, p. 468

Host. An unknown fish
