

Hemipontella = synonym.
Claus, 1892,

⊙
H. setosa (Lubbock)

Syn Hemipontella Claus, 1893, p. 272

(A synonym of Labidocera)
Sars, 1902, p. 141

Grasping antennae with a little wider central portion and longer, the inner margin of the 17^o joint with a row of setae (a) and weakly-toothed setae on the 18th and 19th joint - of which the former (β) have chelate processes - while the latter (γ) distally form a straight process - The 22^o joint has no distal process - Right grasping foot with an elongate chela = left foot with no trace of an endopod.

HEMIPONTELLA ROTUNDIFRONS CLAUS, 1892

--, (= LABIDOCERA NERII) VERVOORT, 1965: 189
