

Campylidae - Notodelphyoida ①

Linaresia valid

Zulueta, 1908.

L. mamillifera (M)

Syn. Linaresia Zulueta, 1908, p. 23.

- Zulueta, 1908: 23

Body fusiform, little contractile: cuticle covered with papillae in the form of mammillae, each with its mammelon. A prominent rostrum between the antennules: antennae 1-segd, tipped with a stout claw: a large tubercle below each antenna. Caudal rami conical processes half as long as the body.

Two pairs of legs, exopods well-developed, 1-segd, tipped with 2 terminal, curved, subequal claws and a lateral spine: endopods lacking or very rudimentary.

LAMIPPODAE - POECIKOSTOMATOIDA

LINARESIA ZUKUETA, 1908

CARD 2

- BRESCIANI, 1986: 127, 128, 139, 142, FIG. 8C - tegument
- STOCK 1988: 351, TYPE OF LINARESINA N.

SUBFAM.
