

in)

Aetideidae - Calanoida

Pseudeuchaeta

(M)

G.O. Sars, 1905

P. brevicauda

— — Syn Pseudeuchaeta Sars, 1905, p. 18.

Differs from Euchaeta and Valdiviella in the feeble development of the abdomen, in the total lack of a frontal rostrum, and in the enormous size of the posterior maxpds. Characteristic differences can also be shown in the structure of the mandibles, the maxillae, and the swimming legs.
